Allowance

3. Claims 1-12 are allowed.
4. The following is an examiner's statement of reasons for allowance: the closest prior art to Ferguson, et al. does not teach or fairly suggest processing captured digital images to determine the presence of a potential material failure in an immobile or inert man-made structure by directly using predetermined coordinate positions which locate the man-made structures in one or more of the captured digital images. It is for this reason and in combination with all of the other elements of the claims that claims 1-12 are allowable over the closest prior art of Ferguson, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
